

PREVENTIVE CONSERVATION PROCEDURES MANUAL

**June Hosford
Heritage Collections Conservation & Training
Revision March 2026**

CONTENTS

MANUAL	Page No.
Introduction	1
Introduction to Preventive Conservation	2 - 3
Materials that make up museum collections	4
Acquisition procedures	5
Registration procedures	
• Marking & labelling objects	6 - 12
Storage of collections	
• Location	13
• Storage furniture	13
• Storage materials	14
• Storage methods	14
• Procedures to follow when working in collection stores;	15 - 17
• Housekeeping programme for collections in storage	17 - 19
• Storing collections, <i>Introduction</i> ;	20
• Procedures for storing the variety of objects that make up the collections;	21 - 34
• Guidelines for handling, packing & transporting collections.	35 - 43
Retrieval procedures	
• Condition reporting	43 - 44
Exhibitions	45 - 47
Loans	48
Procedures for the care & conservation of historical collections on open display, and the buildings they are housed in; <i>Introduction</i>	49
• Housekeeping programme for the care & conservation of collections on open display	50 - 52
• Preventive maintenance care for vulnerable collections on open display	54 - 64
• Conservation of historic collections and interiors: principles, practice & ethics	65 - 67
• Preventive conservation in historic houses	68 - 70
Guidelines intended to protect collections from loss or damage, during building works at museums & historical sites.	71 - 73

	Page No.
Planning for Disaster Management & Control	74 – 76
Stages in Disaster Planning: checklist to identify potential risks to collections;	77 – 83
Guidelines to develop a Disaster Management Plan to protect social history collections from a potential disaster: preventive measures for protecting collections from the threat of fire.	84 – 85
Planning for a Disaster: important points to consider when drawing up a Disaster Control Plan.	86 – 87
Bibliography	88
APPENDIX	
For Reference only	
Code of ethics for Conservators	1 - 2
Glossary of conservation terms & definitions	3 - 9
List of products for storage & exhibition of collections	10 - 11
List of suppliers of conservation materials for storage & exhibition of collections	12 - 20
List of services provided for conservation emergencies	21 - 22
Registration procedures	
• Archaeological material – where the number is not marked directly on an artefact	23 - 25
Storage – details of procedures, in sections on:	
• The Climate in the store – procedures for using the data logger	26
• Handling collections	27
• Storing collections – details of procedures	28 - 32
Agents of Deterioration:	
Humidity & temperature	33 - 40
• Causes of damage to objects through combined effects of RH & temperature;	
• A guide to safe Relative Humidity (RH) levels for collections;	
• Methods of stabilising the RH;	
• Safe temperature levels for collections;	

- Effects of extremes & fluctuations of temperature;
- Effects of extremes & fluctuations of RH.

Light 41 - 51

- Measuring visible light & UV radiation;
- Recommended light intensity levels for material on exhibition;
- How we eliminate UV radiation;
- Artificial light;
- How LED light bulbs work

Biological pests 52 - 68

Insect pests & rodents:

- Prevention of insects: inspection, trapping, environmental control;
- Conditions needed for insects to thrive;
- Routine pest control treatment;
- Intermittent pest problems;
- Procedures for an isolated insect infestation;
- Procedures for a professional fumigation in stored collections;
- Life cycles and eating habits of insect pests commonly found in museums;
- Life cycles and eating habits of rodents commonly found in museums.

Mould:

- Control & prevention of mould growth. 69 - 73

Atmospheric pollution 74 - 79

Particulate pollution and its removal

Gaseous pollution:

- damage caused through vapours given off by material used for storage & exhibition;
- Protecting collections from atmospheric pollution: safe plastics, paints & adhesives; controlling the environment; other simple and inexpensive options to control pollution.

Physical, or Mechanical damage 80 - 84

- General guidelines for handling &/or moving collections

Retrieval procedures:	85 - 91
<ul style="list-style-type: none"> • Types of Condition Reports & supporting information • Form 1. Condition Report Form (outgoing loans) • Form 2. Condition Report Form (incoming loans) • Form 3. Conservation Form 	
Other procedures relating to disposal of chemical waste, & Facility Report	
<ul style="list-style-type: none"> • Form 4. Waste disposal Application Form (City of Cape Town) • List of possible materials for disposal • Form 5. Facility Report 	<p>92</p> <p>93</p> <p>94 – 97</p>
Packing & Transportation	98 – 103
Other procedures, continued	
<ul style="list-style-type: none"> • Fish moth bait recipe • Procedures to ensure safe cleaning routines • Example of a floor plan 	<p>104</p> <p>105 – 106</p> <p>107 - 108</p>
Planning for Disaster Management & Control, Contents of a Disaster Box	109
